

Plastic Sorter

G-series machines are the combination of best technology available today and our decade of experience in the color sorting industry to give you the ultimate benefit of getting consistent good purity in sorting with very minimum loss of good grain in the rejection.

Sorting...
Pure genius!

Technical Specifications

| SPECIFICATIONS | MODEL 1 | MODEL 2 |
|--------------------|--------------------------|-------------|
| Models | ☞ 072 - 120 | ☞ 072 - 140 |
| Primary | 60 | 80 |
| Secondary | 40 | 40 |
| Final | 20 | 20 |
| Compressor (HP) | 15 | 15 |
| Power (KVA) | 2 | 3 |
| Dimensions (in mm) | L 1700 x B 1350 x H 1800 | |
| Weight (in kgs) | 750 Kgs (max) | |

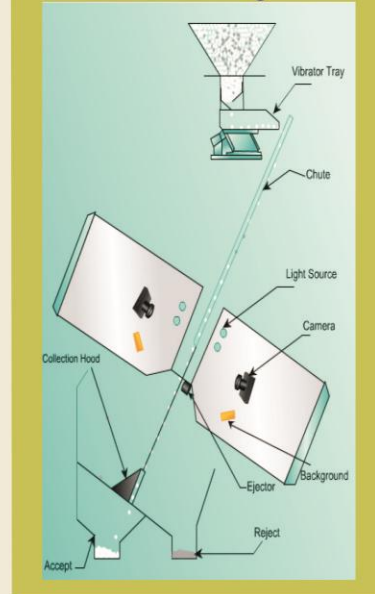

Specifications are subject to change.

Capacity depends upon contamination ratio. Air Compressor, Air Dryer, Stabiliser and CVT / CVCF are optional equipments.

- ☞ 2048 Pixels Advance Linear CCD Camera Technology
- ☞ Double side viewing incorporated
- ☞ Detecting 0.088 mm subtle colors and defects
- ☞ Manual IRIS / Focus Lens
- ☞ Embedded System with digital image technique
- ☞ Stable sorter accuracy by improved collection efficiency
- ☞ Capable of simultaneous sorting of chalky
- ☞ LED LAMP give more stable and better life
- ☞ Ejector: 1000/500 operations per Second
- ☞ #7 inch TFT Color Touch Control Panel
- ☞ Auto wiper cleaning system
- ☞ Excellent output in minimum number of channels
- ☞ Technology take care of lighting Background variation
- ☞ Upto 20 programming modes can be registered in memory
